Through 20 years of shared friendship and enthusiasm, the association Sur le chemin de R.L. Stevenson has built up its ever-growing network. Over those 20 years we've helped more and more walkers come to know and love the Stevenson trail, France's GR70 (long distance footpath 70). Now it's time to celebrate. This 20<sup>th</sup> anniversary will be both a festive and a creative event – to meet old and new friends, share experiences, develop wider European cultural perspectives, and discover more of the world of hiking and travelling.
